July 14, 2010
September 8, 2010
November 10, 2010**

What is Advocacy?

Advocacy means supporting a cause. Advocacy includes working with legislators, insurance companies and healthcare organizations at the local, state or national level. For the Hemophilia Outreach Center Advocacy Core Team it means being an advocate for our bleeding disorder community. We also want to be educators, mentors and partners within our community.

Who is the HOC Advocacy Core Team (ACT)?

We are a group of individuals who will evaluate, create and organize advocacy projects that benefit our people in Northeast Wisconsin. We are people with bleeding disorders, parents, spouses, brothers and sisters who are concerned with the issues we face living with a bleeding disorder. We need input about the concerns of our community and how we may be advocates for you.

When do we meet?

The HOC Advocacy Core Team meets the second Wednesday of odd numbered months (January, March, May, July, September and November) from 5:30-7:00 pm at HOC. Dinner is provided at the meetings. The meetings are open to everyone.
